

Montes Taurus Journal of Pure and Applied Mathematics

FOUNDER & EDITOR-IN-CHIEF

Prof.Dr. Yilmaz SIMSEK, Akdeniz University, Turkey

<https://mtjpamjournal.com/>

VOLUME 1 / ISSUE 2 / YEAR 2019

- ❑ The Montes Taurus Journal of Pure and Applied Mathematics (MTJPAM) features selected research articles that represent the broad spectrum of interest in contemporary Pure and Applied Mathematics, Statistics and allied areas. A valuable resource for mathematicians and statistics, the journal provides an international forum for the publication of original research in this field.
- ❑ The Montes Taurus Journal of Pure and Applied Mathematics (MTJPAM) is encouraging submissions of quality, long articles where most or all of the technical details are included. The journal now considers and welcomes also papers are interested in Pure and Applied Mathematics and allied areas.
- ❑ The Montes Taurus Journal of Pure and Applied Mathematics (MTJPAM) is a **single-blind refereed journal**. The abbreviation of this journal is **Montes Taurus J. Pure Appl. Math**. The Montes Taurus Journal of Pure and Applied Mathematics is published at least twice a year and also **this journal is free of charge**.
- ❑ **Inspiration of name of journal:** The name of this journal comes from the famous mountains called “Taurus Mountains” which is composed of a combination of sequential mountains surround the Mediterranean region of Turkey. It is well-known that “Montes Taurus” is a irregular nested very complex region on the moon. The Montes Taurus were so-called after Taurus Mountains which lie down as parallel to Mediterranean Sea.

EDITORIAL BOARD

Founder & Editor-in-Chief

Yilmaz SIMSEK, (Akdeniz University, Turkey)

Honorary Editor

Hari M. SRIVASTAVA, (University of Victoria, Canada)

Editors

- Gradimir V. MILOVANOVIC, (Serbian Academy of Sciences and Arts, Serbia)
 - Satish IYENGAR, (University of Pittsburgh, USA)
 - Chandrashekar ADIGA, (University of Mysore, India)
- Abdelmejid BAYAD (Université d'Evry Val d'Essonne, France)
 - Taekyun KIM, (Kwangwoon University, South Korea)
 - Junesang CHOI, (Dongguk University, South Korea)
 - Burcin SIMSEK, (Bristol-Myers Squibb Company, USA)
- Themistocles M. RASSIAS, (National Technical University of Athens, Greece)
 - Mustafa ALKAN, (Akdeniz University, Turkey)
- Irem KUCUKOGLU, Publishing Editor, (Alanya Alaaddin Keykubat University, Turkey)
 - Ortaç ÖNEŞ, Technical Editor, (Akdeniz University, Turkey)

Contents

Sums of infinite power series whose coefficients involve products of the Catalan–Qi numbers	1
Feng QI, Bai-Ni GUO	
A simple proof of a binomial identity with applications	13
Ting-Ting BAI, Qiu-Ming LUO	
Recursive formulas generating power moments of ternary Kloosterman sums with trace nonzero square arguments: $O(2n + 1; 3^r)$ case	21
Dae San KIM	
On certain solutions of a generalized Perl’s vector equation involving fractional time derivative	42
Hemant KUMAR, M. A. PATHAN, Surya Kant RAI	
Jacobi forms in two variables: Multiple elliptic Dedekind sums, the Kummer–Von Staudt Clausen congruences for elliptic Bernoulli functions and values of Hecke L -functions	58
Abdelmejid BAYAD
